

Action for the River Kennet is offering a limited number of free Eel Workshops and Assemblies with local schools, to engage students with their local rivers and the wonderful wildlife that they support. We are delivering these interactive Eel Workshops and Eel Assemblies in line with Government Covid-19 Guidelines. Currently this is virtually, though we hope to deliver in-person sessions by the autumn.

The workshops and assemblies are free, fun, educational and hands on.

Eel Workshops

Our 1-hour Eel Workshop is tailored to KS2 classes and will include:

- Your school's local river
- European eel life cycle
- Eel anatomy
- What a healthy river is, habitats and river features

Eel Assemblies

An Eel Assembly can be delivered to the whole school. It is a minimum of 30 minutes long and will:

- Introduce students to your school's local river
- Tell the amazing story of the European eel's amazing journey all the way from the Sargasso Sea

Is there a charge? No, the workshop or assembly is provided at no charge.

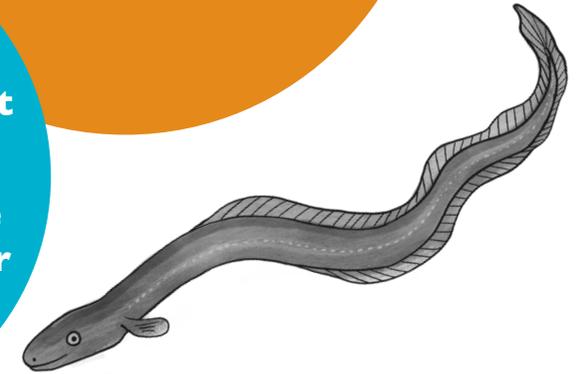

If you would like to book an Eel Workshop or Assembly please contact: Mia Ridler at mia@riverkennet.org or mobile 07583 820160

Bringing the amazing life of the European eel to your school

Did you know tiny glass eels enter the Thames catchment every year?

These eels have made an epic journey of over 6,500km to live in your rivers.

Thames Catchment Community Eels project is a partnership, led by Thames Rivers Trust with Action for the River Kennet, South East Rivers Trust and Thames21. We are working together to aid the long-term survival of the European eel. Through new citizen science monitoring we will be collecting and analysing robust data, to be used for strategic decisions for future eel recovery projects.

Through education and engagement with local schools and communities we are raising the profile of this Critically Endangered fish.
